The estimated costs associated with this offering are approximately \$15,000 leaving us with post-offering cash assets of \$9,759 as of June 30, 2011. THE OFFERING:

Securities Being Offered	Up to 7,090,000 shares of common stock.
Offering Price	<p>The selling shareholders will sell our shares at a fixed price of \$0.01 per share unless and until our shares are quoted on the OTC Bulletin Board.</p> <p>There is no public market for our common stock. We cannot give any assurance that the shares offered will have a market value, or that they can be resold at the offered price if and when an active secondary market might develop, or that a public market for our securities may be sustained even if developed. The absence of a public market for our stock will make it difficult to sell your shares in our stock.</p> <p>We intend to apply to the OTC Bulletin Board, through a market maker that is a licensed broker dealer, to allow the trading of our common stock upon our becoming a reporting entity under the Securities Exchange Act of 1934. If our common stock becomes so quoted and a market for the stock develops, the actual price of stock will be determined by prevailing market prices at the time of sale or by private transactions negotiated by the selling shareholders. The offering price would thus be determined by market factors and the independent decisions of the selling shareholders.</p>
Terms of the Offering	The selling shareholders will determine when and how they will sell the common stock offered in this prospectus.
Termination of the Offering	The offering will conclude when all of the 7,090,000 shares of common stock have been sold, the shares no longer need to be registered to be sold due to the operation of Rule 144 or we decide at any time to terminate the registration of the shares at our sole discretion but in no event later than two years from the effective date of this registration statement. (Date of expiration will be provided for this continuous offering once known)
Securities Issued and to be Issued	7,090,000 shares of our common stock to be sold in this prospectus are issued and outstanding as of the date of this prospectus. All of the common stock to be sold under this prospectus will be sold by existing shareholders.
Use of Proceeds	We will not receive any proceeds from the sale of the common stock by the selling shareholders.

The purpose of this offering is to offer existing shareholders (other than officers and directors) the opportunity to benefit from a trading market, if one develops in response to the Company's future performance. Depending on the level of market interest, the Company may consider selling additional shares to new investors to help fund working capital requirements and expand the scope of business. The Company is aware of the fact that the creation of a secondary market of shares for sale may have an adverse effect on our ability to raise capital in the future. The Company is not contractually obligated to file the S-1.

RISK FACTORS

An investment in our common stock involves a high degree of risk. You should carefully consider the risks described below and the other information in this prospectus before investing in our common stock. If any of the following risks occur, our business, operating results and financial condition could be seriously harmed. The trading price of our common stock could decline due to any of these risks, and you may lose all or part of your investment.

WE INTEND TO ISSUE ADDITIONAL SHARES OF COMMON STOCK, WHICH WOULD REDUCE INVESTORS' PERCENT OF OWNERSHIP AND MAY DILUTE OUR SHARE VALUE.

Our Articles of Incorporation authorize the issuance of 75,000,000 shares of common stock, par value \$0.001 per share, of which 11,440,000 shares are issued and outstanding. The future issuance of common stock may result in substantial dilution in the percentage of our common stock held by our then existing shareholders. We may value any common stock issued in the future on an arbitrary basis. The issuance of common stock for future services or acquisitions or other corporate actions may have the effect of diluting the value of the shares held by our investors, and might have an adverse effect on any trading market for our common stock.

IF WE DO NOT OBTAIN ADDITIONAL FINANCING, OUR BUSINESS WILL FAIL.

At June 30, 2011, we had cash on hand of \$24,759, and we have accumulated a deficit of (\$4,416) in business development expenses. The estimated costs associated with this offering are approximately \$15,000 leaving us with post-offering cash assets of \$9,759 as of June 30, 2011. The current burn rate is the cost associated with costs of being a reporting issuer and is projected to increase substantially once operations begin.

We anticipate that additional funding will be needed for general administrative expenses and marketing costs. We intend to raise the required funds through an equity placement by filing a secondary registration statement. We will realize

5

<PAGE>

no proceeds from the present registration statement and may have difficulties in raising additional funds due to the creation of a secondary market of shares for sale. However, there is no guarantee that we will be able to raise the required cash and because of this our business may fail. We have not generated any revenue from operations to date. The specific cost requirements needed to maintain operations will depend upon demand generated from potential clients but initial projections are discussed in the Plan of Operations.

We do not currently have any arrangements for financing. Obtaining additional funding will be subject to a number of factors, including general market conditions, investor acceptance of our business plan and initial results from our business operations. These factors may impact the timing, amount, terms or conditions of additional financing available to us. The most likely source of future funds available to us is through the sale of additional shares of common stock or advances from our sole director.

BECAUSE OUR OFFICERS AND DIRECTORS HAVE OTHER BUSINESS INTERESTS, THEY MAY NOT

BE ABLE OR WILLING TO DEVOTE A SUFFICIENT AMOUNT OF TIME TO OUR BUSINESS OPERATIONS, CAUSING OUR BUSINESS TO FAIL.

Our two officers and directors Gary O'Flynn and Patrick Corkery will only be devoting limited time to our operations. Patrick will be handling most of the company's day to day operations and intends to devote 10 hours of his week to our business affairs until such a time when a salary can be drawn. Gary O'Flynn will be available on an as needed basis until full operations begin. Because our officers and directors will only be devoting limited time to our operations, our operations may be sporadic and occur at times which are convenient to them. As a result, operations may be periodically interrupted or suspended which could result in a lack of revenues and a possible cessation of operations.

BECAUSE WE HAVE ONLY TWO OFFICERS AND DIRECTORS WHO HAVE NO FORMAL TRAINING IN JOB PLACEMENT SERVICES OUR BUSINESS HAS A HIGHER RISK OF FAILURE.

Our two officers Gary O'Flynn and Patrick Corkery do not have experience in the field of job placement services. Because of this lack of experience there is a risk that some of the strategic or operational factors needed to achieve self-sustaining levels of revenues may be overlooked. If we are unable to reach our projected break-even level of clients our business could fail or require additional financing beyond our current budget.

BECAUSE WE HAVE ONLY TWO OFFICERS AND DIRECTORS WHO HAVE NO FORMAL TRAINING IN FINANCIAL ACCOUNTING AND MANAGEMENT, OUR BUSINESS HAS A HIGHER RISK OF FAILURE.

We have only two officers and directors. Both have no formal training in financial accounting and management; however, they are responsible for our managerial and organizational structure, which will include preparation of disclosure and accounting controls. When the disclosure and accounting controls referred to above are implemented, he will be responsible for the administration of them. Should he not have sufficient experience, he may be incapable of creating and implementing the controls which may cause us to be subject to sanctions and fines by the SEC which ultimately could cause an investor to lose their investment. Gary and Patrick's lack of training in financial accounting and management may result in a material misstatement of the Company's financial statements. In addition due to the Company's lack of accounting personnel we may be unsuccessful in maintaining effective internal controls over financial reporting and disclosure controls and procedures, which may result in material misstatements of our financial statements.

BECAUSE OUR CONTINUATION AS A GOING CONCERN IS IN DOUBT, WE WILL BE FORCED TO CEASE BUSINESS OPERATIONS UNLESS WE CAN GENERATE PROFITABLE OPERATIONS IN THE FUTURE.

We will be incurring losses until we build a break-even level of revenue. Further losses are anticipated in the development of our business. As a result, there is substantial doubt about our ability to continue as a going concern. Our ability to continue as a going concern is dependent upon our ability to generate profitable operations in the future and/or to obtain the necessary financing to meet our obligations and repay our liabilities arising from normal business

6

<PAGE>

operations when they come due. We will require additional funds in order to provide proper service to our potential clients. At this time, we cannot assure investors that we will be able to obtain financing. If we are unable to raise needed financing, we will have to delay or abandon further consulting efforts. If we cannot raise financing to meet our obligations, we will be insolvent and will be forced to cease our business operations.

BECAUSE OUR OFFICERS AND DIRECTORS OWN 36% OF OUR ISSUED AND OUTSTANDING COMMON STOCK, THEY CAN MAKE AND CONTROL CORPORATE DECISIONS THAT MAY BE DISADVANTAGEOUS TO MINORITY SHAREHOLDERS.

Our officers and directors, Gary O'Flynn and Patrick Corkery, own approximately 36% of the outstanding shares of our common stock. Accordingly, they will have a significant influence in determining the outcome of all corporate transactions or other matters, including mergers, consolidations, and the sale of all or substantially all of our assets. They will also have the power to prevent or cause a change in control. The interests of our officers and directors may differ from the interests of the other stockholders and thus result in corporate decisions that are disadvantageous to other shareholders.

THE AMOUNT OF SHARES TO BE SOLD THROUGH THIS OFFERING MAY MAKE IT DIFFICULT TO MAKE A SUCCESSFUL OFFERING OF OUR SECURITIES IN THE NEAR FUTURE.

Our selling shareholders are offering a significant percentage (64%) of our outstanding shares through this registration statement. As such, it may be

difficult to make a successful offering of our securities to raise capital in the near future.

U.S. INVESTORS MAY EXPERIENCE DIFFICULTIES IN ATTEMPTING TO EFFECT SERVICE OF PROCESS AND TO ENFORCE JUDGMENTS BASED UPON U.S. FEDERAL SECURITIES LAWS AGAINST THE COMPANY AND ITS NON-U.S. RESIDENT OFFICERS AND DIRECTORS.

We are organized under the laws of State of Nevada, but our officers and directors are non-U.S. residents. Consequently, it may be difficult for investors to affect service of process on Gary O'Flynn and Patrick Corkery in the United States and to enforce in the United States judgments obtained in United States courts against Mr. O'Flynn based on the civil liability provisions of the United States securities laws. Since our assets will be located in Ireland and other non-US countries it may be difficult or impossible for U.S. investors to collect a judgment against us. In addition, any judgment obtained in the United States against us may not be enforceable in the United States.

IF A MARKET FOR OUR COMMON STOCK DOES NOT DEVELOP, SHAREHOLDERS MAY BE UNABLE TO SELL THEIR SHARES.

There is currently no market for our common stock and we can provide no assurance that a market will develop. We plan to apply for listing of our common stock on the over the counter bulletin board upon the effectiveness of this registration statement, of which this prospectus forms a part. However, we can provide investors with no assurance that our shares will be quoted on the bulletin board or, if quoted, that a public market will materialize. If no market is ever developed for our shares, it will be difficult for shareholders to sell their stock. In such a case, shareholders may find that they are unable to achieve benefits from their investment.

OUR SHARES OF COMMON STOCK ARE SUBJECT TO THE "PENNY STOCK" RULES OF THE SECURITIES AND EXCHANGE COMMISSION AND THE TRADING MARKET IN OUR SECURITIES WILL BE LIMITED, WHICH WILL MAKE TRANSACTIONS IN OUR STOCK CUMBERSOME AND MAY REDUCE THE VALUE OF AN INVESTMENT IN OUR STOCK.

The SEC has adopted rules that regulate broker-dealer practices in connection with transactions in "penny stocks." Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on

7

<PAGE>

certain national securities exchanges or quoted on the NASDAQ system, provided that current price and volume information with respect to transactions in such securities is provided by the exchange or system). Penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from those rules, to deliver a standardized risk disclosure document prepared by the SEC, which specifies information about penny stocks and the nature and significance of risks of the penny stock market. A broker-dealer must also provide the customer with bid and offer quotations for the penny stock, the compensation of the broker-dealer, and sales person in the transaction, and monthly account statements indicating the market value of each penny stock held in the customer's account. In addition, the penny stock rules require that, prior to a transaction in a penny stock not otherwise exempt from those rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the trading activity in the secondary market for stock that becomes subject to those penny stock rules. If a trading market for our common stock develops, our common stock will probably become subject to the penny stock rules, and shareholders may have difficulty in selling their shares.

ANY ADDITIONAL FUNDING WE ARRANGE THROUGH THE SALE OF OUR COMMON STOCK WILL RESULT IN DILUTION TO EXISTING SHAREHOLDERS.

We must raise additional capital in order for our business plan to succeed. Our most likely source of additional capital will be through the sale of additional shares of common stock. Such stock issuances will cause stockholders' interests in our company to be diluted. Such dilution will negatively affect the value of investors' shares.

WE DO NOT EXPECT TO PAY DIVIDENDS IN THE FORESEEABLE FUTURE.

We have never paid any dividends on our common stock. We do not expect to pay cash dividends on our common stock at any time in the foreseeable future. The future payment of dividends directly depends upon our future earnings, capital requirements, financial requirements and other factors that our board of directors will consider. Since we do not anticipate paying cash dividends on our common stock, a return on your investment, if any, will depend solely on an increase, if any, in the market value of our common stock

WE HAVE NO EXPERIENCE AS A PUBLIC COMPANY.

We have never operated as a public company. We have no experience in complying with the various rules and regulations, which are required of a public company. As a result, we may not be able to operate successfully as a public company, even if our operations are successful. We plan to comply with all of the various rules and regulations, which are required of a public company. However, if we cannot operate successfully as a public company, your investment may be adversely affected. Our inability to operate as a public company could be the basis of your losing your entire investment in us.

As a public company we will incur additional costs including but not limited to the following: Audit, Legal, Prospectus printing and drafting, SEC fees, Market Maker, Transfer Agent, and EDGAR filing fees. These costs are expected to run between \$15,000 and \$35,000 per year.

WE DO NOT INTEND TO REGISTER A CLASS OF SECURITIES UNDER SECTION 12 OF THE EXCHANGE ACT, AND AS SUCH, WE WILL ONLY BE SUBJECT TO LIMITED REPORTING REQUIREMENTS PURSUANT TO SECTION 15(D) OF THE EXCHANGE ACT.

We do not intend to register a class of securities under Section 12 of the Exchange Act. Therefore, we will only be subject to limited reporting requirements imposed by Section 15(d) of the Exchange Act. Specifically, in addition to the limited reporting requirements, we are not subject to the Proxy Rules outlined in Section 14 of the Exchange Act, the Section 16 short-swing profit provisions, or the tender offer rules under the Williams Act, nor shall our officers, directors and beneficial owners be required to report their beneficial ownership to the SEC pursuant to Section 16 of the Exchange Act. Pursuant to Section 15(d), we will be required to file periodic reports with the SEC, such as annual reports on Form 10-K, quarterly reports on Form 10-Q, and current reports on Form 8-K, once this Registration Statement is declared effective. Thus, investors will have access to less information about the Company and therefore bear a larger risk than if we were a fully reporting company.

IF WE HAVE LESS THAN 300 RECORD SHAREHOLDERS AT THE BEGINNING OF ANY FISCAL YEAR, OTHER THAN THE FISCAL YEAR WITHIN WHICH THIS REGISTRATION STATEMENT BECOMES EFFECTIVE, OUR REPORTING OBLIGATIONS UNDER SECTION 15(D) OF THE EXCHANGE ACT WILL BE SUSPENDED.

8

<PAGE>

There is a significant risk that we will have less than 300 record shareholders at our next fiscal year end and at the conclusion of this offering. If we have less than 300 record shareholders, our reporting obligations under Section 15(d) of the Exchange Act will be suspended, and we would no longer be obligated to provide periodic reports following the Form 10-K for the fiscal year end immediately following this offering. Furthermore, if, at the beginning of any fiscal year, we have fewer than 300 record shareholders for the class of securities being registered under this Registration Statement, our reporting obligations under Section 15(d) of the Exchange Act will be automatically suspended for that fiscal year. If we were to cease reporting, you will not have access to updated information regarding the Company's business, financial condition and results of operation.

FORWARD-LOOKING STATEMENTS

This prospectus contains forward-looking statements that involve risks and uncertainties. We use words such as anticipate, believe, plan, expect, future, intend and similar expressions to identify such forward-looking statements. You should not place too much reliance on these forward-looking statements. Our actual results are most likely to differ materially from those anticipated in these forward-looking statements for many reasons, including the risks faced by us described in the "Risk Factors" section and elsewhere in this prospectus.

USE OF PROCEEDS

We will not receive any proceeds from the sale of the common stock offered through this prospectus by the selling shareholders.

DETERMINATION OF OFFERING PRICE

The selling shareholders will sell our shares at a fixed price of \$0.01 per share unless and until our shares are quoted on the OTC Bulletin Board. We determined this offering price arbitrarily. There is no relationship between

this price and our assets, earnings, book value or any other objective criteria of value.

We intend to apply to the OTC Bulletin Board through a market maker for the quotation of our common stock upon our becoming a reporting entity under the Securities Exchange Act of 1934. If our common stock becomes so quoted and a market for the stock develops, the actual price of stock will be determined by prevailing market prices at the time of sale or by private transactions negotiated by the selling shareholders. The offering price would thus be determined by market factors and the independent decisions of the selling shareholders.

DILUTION

The common stock to be sold by the selling shareholders is common stock that is currently issued and outstanding. Accordingly, there will be no dilution to our existing shareholders.

SELLING SHAREHOLDERS

The selling shareholders named in this prospectus are offering all of the 7,090,000 shares of common stock offered through this prospectus. These shares were acquired from us in private placements that were exempt from registration provided under Regulation S of the Securities Act of 1933. All shares were acquired outside of the United States by non-U.S. persons. The shares include the following:

1. 7,090,000 shares of our common stock that the selling shareholders acquired from us in an offering that was exempt from registration under Regulation S of the Securities Act of 1933 that was completed on March 10, 2010;

PLAN OF DISTRIBUTION

The selling shareholders may sell some or all of their common stock in one or more transactions, including block transactions. There are no arrangements, agreements or understandings with respect to the sale of these securities.

The selling shareholders will sell our shares at a fixed price of \$0.01 unless and until our shares are quoted on the OTC Bulletin Board. We determined this offering price arbitrarily. We intend to contact an authorized OTC Bulletin Board market-maker for sponsorship of our securities on the OTC Bulletin Board. Although we intend to apply for quotation of our common stock on the OTC Bulletin Board, public trading of our common stock may never materialize. If our common stock becomes quoted on the OTC Bulletin Board, then the sales price to the public will vary according to the selling decisions of each selling shareholder and the market for our stock at the time of resale.

If applicable, the selling shareholders may distribute shares to one or more of their nominees who are unaffiliated with us. Such nominees may, in turn, distribute such shares as described above. If these shares being registered for resale are transferred from the named selling shareholders and the new shareholders wish to rely on the prospectus to resell these shares, then we must first file a prospectus supplement naming these individuals as selling shareholders and providing the information required concerning the identity of each selling shareholder and he or her relationship to us. There is no agreement or understanding between the selling shareholders and any nominees with respect to the distribution of the shares being registered for resale pursuant to this registration statement.

For the purpose of this registration statement nominee will be defined as: (a) a person or entity who is requested or named to act for another, such as an agent or trustee, or (b) a potential successor to another's rights under a contract.

We can provide no assurance that all or any of the common stock offered will be sold by the selling shareholders.

We are bearing all costs relating to the registration of the common stock. The selling shareholders, however, will pay any commissions or other fees payable to brokers or dealers in connection with any sale of the common stock.

Other than those who are considered affiliates and must comply with Rule 144, the persons listed in the table above plan to offer the shares shown opposite their respective names by means of this prospectus. The owners of the shares to be sold by means of this prospectus are referred to as the "selling shareholders". The selling shareholders acquired their shares from us in private negotiated transactions. These shares may be sold by one or more of the following methods, without limitations.

- * A block trade in which a broker or dealer so engaged will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- * Purchase by a broker or dealer as principal and resale by such broker or dealer for its account pursuant to this prospectus;
- * Ordinary brokerage transactions and transactions in which the broker solicits purchasers
- * Face to face transactions between sellers and purchasers without a broker/dealer.

In competing sales, brokers or dealers engaged by the selling shareholders may arrange for other brokers or dealers to participate. Brokers or dealers may receive commissions or discounts from selling shareholders in amounts to be negotiated. As to any particular broker-dealer, this compensation might be in excess of customary commissions. Neither, we nor the selling stockholders can presently estimate the amount of such compensation.

Any broker/dealers who act in connection with the sale of the shares will be deemed to be "underwriters" within the meaning of the Securities Acts of 1933, and any commissions received by them and any profit on any resale of the shares

our common stock.

CONVERTIBLE SECURITIES

We have not issued and do not have any outstanding securities convertible into shares of our common stock or any rights convertible or exchangeable into shares of our common stock.

INTERESTS OF NAMED EXPERTS AND COUNSEL

No expert or counsel named in this prospectus as having prepared or certified any part of this prospectus or having given an opinion upon the validity of the securities being registered or upon other legal matters in connection with the registration or offering of the common stock was employed on a contingency basis, or had, or is to receive, in connection with the offering, an interest, direct or indirect, in the registrant or any of its parents or subsidiaries. Nor was any such person connected with the registrant or any of its parents or subsidiaries as a promoter, managing or principal underwriter, voting trustee, director, officer, or employee.

Lawrence W. Horwitz, Esq. has provided an opinion on the validity of our common stock.

The financial statements included in this prospectus have been audited by Sadler, Gibb & Associates, LLC. To the extent and for the periods set forth in their report appearing elsewhere in this document and in the registration statement filed with the SEC, and are included in reliance upon such report given upon the authority of said firm as experts in auditing and accounting.

DESCRIPTION OF BUSINESS

We were incorporated in the State of Nevada on July 12, 2010. We have not started operations but started initial work on a corporate website (www.goffcareers.com). As of the date of this filing, our website only includes contact information as well as a brief description of the Company. We intend to create a website that will operate as a link for employers in and individuals seeking employment in the UK and Ireland. We intend to differentiate ourselves from our competition by taking advantage of social media tools both to spread awareness and to create user friendly applications (i.e. allow job seekers to get updates via Tweets for new jobs in given fields and locations, share jobs with friends or recommend a friend to an employer on Facebook). We also intend to create an interface to allow for employers and job seekers to conduct interviews via video conferencing and applications for popular mobile devices. We believe this to be an area that will allow us to offer additional services in the future and create new revenue streams.

14

<PAGE>

PRO FORMA EXPENSE AND REVENUE BUDGET (ALL COSTS HAVE BEEN CONVERTED TO US DOLLARS OUR REPORTING CURRENCY)

Before any revenue is generated the company will require additional capital which we intend to raise through an equity financing and the filing of an additional registration statement. We will realize no proceeds from the present registration statement and may have difficulties in raising additional funds due to the creation of a secondary market of shares for sale. We intend to concentrate all our efforts on raising capital during this period.

We cannot commence our plan of operations even if this registration statement goes effective because we will not receive any proceeds from the sale of shares. We can only commence operations if we raise cash through the future sale of shares. We will require additional financing of \$185,000 in order to proceed with our full business plan for a full year. We plan to sell additional common shares in order to raise the funds necessary to pursue our plan of operations. Issuances of additional shares will result in dilution to our existing shareholders. We also may receive loans from our officers and directors. We currently do not have any arrangements in place for obtaining director loans and there is no assurance that we will be successful in completing any equity financing.

If we are successful in raising capital we intend on carrying out our plan of operations.

CAPITAL EXPENSES

Major budgeted expenses include the following:

Secondary Offering:	\$ 20,000
Initial Website Development:	\$ 20,000

Video Conferencing and Apps:	\$ 20,000
Marketing and Related:	\$ 60,000
General and Administrative:	\$ 65,000
Total Estimated Capital Expenses:	\$185,000

VARIABLE EXPENSES

The primary variable cost will be web-based consulting services. Our Capital Expenses include an initial website creation cost. However as we increase the number of clients we will require additional technical services to make revisions and updates to the corporate website.

GENERAL AND ADMINISTRATIVE AND OVERHEAD

Audit:	\$ 15,000
Legal:	\$ 8,000
Filing fees:	\$ 2,000
Salaries:	\$ 40,000

Total Estimated Corporate Overhead Expenses: \$ 65,000

REVENUES

Revenues will be based on the amount of clients we are able to provide our services to and the amount of user traffic we are able to drive to our site.

15

<PAGE>

EMPLOYERS

Our prices will range from \$50 - \$250 per month and will be dependent on the amount of content and visibility provided for the offer of employment. A simple job posting with less than 200 words and no highlighting of the title will run at a flat rate of \$50 per month. If the employer wishes to increase visibility by highlighting the posting or having additional words and/or images, prices will increase accordingly.

Our breakeven point for clients with an average price of \$100 per month is 155 employer postings on a monthly basis.

BANNER ADVERTISEMENTS:

The price we are able to charge for banner advertisements will depend on user traffic and if our business model is successful will increase over time. We intend to market 3 separate spots on our homepage initially: one large banner (\$300 per month) and two smaller banners (\$100 per month) for an additional \$500 per month. Management intends to increase traffic and resulting price of banner advertisements through marketing efforts.

MARKET

Our market is dual focused. Our revenues will come primarily from employers who are seeking suitable candidates for positions within firms. An equally important market for our business model is awareness and traffic from job seekers of all categories (unemployed, students, people seeking new careers and people seeking second jobs). The sizes of both the aforementioned markets are immense when considering the entirety of the United Kingdom and Ireland.

Gaining market share of both employers and job seekers from current competition will be the primary focus of our marketing strategy and management efforts for the initial year of operations.

COMPETITION

Our primary competitors in the online job placement and requirement space are listed below:

DIVIDENDS

There are no restrictions in our articles of incorporation or bylaws that prevent us from declaring dividends. The Nevada Revised Statutes, however, do prohibit us from declaring dividends where, after giving effect to the distribution of the dividend:

1. we would not be able to pay our debts as they become due in the usual course of business; or
2. our total assets would be less than the sum of our total liabilities plus the amount that would be needed to satisfy the rights of shareholders who have preferential rights superior to those receiving the distribution.

We have not declared any dividends, and we do not plan to declare any dividends in the foreseeable future.

We expect to complete an additional public offering and file an additional registration statement registering the newly issued shares within 180 days after the effectiveness of this registration statement by the Securities and Exchange Commissions. We intend to concentrate all our efforts on raising capital during this period. We do not plan to begin business operations until we complete our additional public offering. We will require additional financing of \$185,000 in order to proceed with our full business plan for a full year. The breakdown of the \$185,000 is discussed in the plan of operation except for the \$65,000 associated with General and Administrative expenses. We will realize no proceeds

We currently do not have any arrangements in place for obtaining director loans and there is no assurance that we will be successful in completing any equity financing. Once the present registration statement is effective there will be a ready market of secondary shares for sale, from which we will receive no proceeds. There is no historical financial information about us upon which to base an evaluation of our performance. We are a start-up company and have not generated any revenues. We cannot guarantee success of our business operations. Our business is subject to risks inherent in the establishment of a new business enterprise, including limited capital resources and possible cost overruns due to price and cost increases in services and products.

19

<PAGE>

We have no assurance that future financing will be available to us on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue, develop or expand our operations. Equity financing could result in additional dilution to existing shareholders.

RESULTS OF OPERATIONS FOR PERIOD ENDING JUNE 30, 2011

We did not earn any revenues from our incorporation on July 12, 2010 to June 30, 2011. We incurred operating expenses in the amount of (\$4,416) for the period from our inception on July 12, 2010 through June 30, 2011. These operating expenses were comprised of incorporation costs, website, bank service charges and other development costs.

As of June 30, 2011, our current assets were \$24,759 and our liabilities were \$825, which resulting in a working capital of 23,934. As of June 30, 2011, current assets were comprised of \$24,759 in cash and liabilities were comprised of \$825 director loan. Management believes the current cash position is sufficient to complete our secondary offering but not enough cash to begin full operations. We will require additional capital in order to develop our website, begin marketing and initiate operations.

We have not attained profitable operations and are dependent upon obtaining financing to continue with our business plan.

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS

We have had no changes in or disagreements with our accountants.

SADLER, GIBB & ASSOCIATES, LLC

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors
Goff Corp.
(A Development Stage Company)

We have audited the accompanying balance sheet of Goff Corp. as of June 30, 2011, and the related statement of operations, stockholders' equity (deficit) and cash flows for the period from inception on July 12, 2010 through June 30, 2011. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an

opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion the financial statements referred to above present fairly, in all material respects, the financial position of Goff Corp. as of June 30, 2011, and the results of their operations and their cash flows for the period from inception on July 12, 2010 through June 30, 2011, in conformity with U.S. generally accepted accounting principles.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company had accumulated losses of \$4,416 as of June 30, 2011, which raises substantial doubt about its ability to continue as a going concern. Management's plans concerning these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

1. ORGANIZATION AND BUSINESS OPERATIONS

GOFF CORP. ("the Company") was incorporated under the laws of the State of Nevada, U.S. on July 12, 2010. The Company is in the development stage as defined under ASC 915, Development Stage Enterprises and it intends to provide web-based services that focus around our website that will operate as a link between employers and individuals seeking employment in the UK and Ireland.

The Company has not generated any revenue to date and consequently its operations are subject to all risks inherent in the establishment of a new business enterprise. For the period from inception, July 12, 2010 through June 30, 2011 the Company has accumulated losses of \$4,416.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) BASIS OF PRESENTATION

The financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America and are presented in US dollars.

b) GOING CONCERN

The financial statements have been prepared on a going concern basis which assumes the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has incurred losses since inception resulting in an accumulated deficit of \$4,416 as of June 30, 2011 and further losses are anticipated in the development of its business raising substantial doubt about the Company's ability to continue as a going concern. The ability to continue as a going concern is dependent upon the Company generating profitable operations in the future and/or obtaining the financing necessary to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management intends to finance operating costs over the next twelve months with existing cash on hand and loans from directors and or private placement of common stock.

c) CASH AND CASH EQUIVALENTS

The Company considers all highly liquid instruments with a maturity of three months or less at the time of issuance to be cash equivalents.

d) USE OF ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

e) Financial Instruments

The carrying value of the Company's financial instruments approximates their fair value because of the short maturity of these instruments.

f) STOCK-BASED COMPENSATION

Stock-based compensation is accounted for at fair value in accordance with ASC Topic 718. To date, the Company has not adopted a stock option plan and has not granted any stock options.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

g) INCOME TAXES

Income taxes are accounted for under the assets and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carry forwards. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled.

h) BASIC AND DILUTED NET LOSS PER SHARE

The Company computes net income (loss) per share in accordance with ASC 260, "Earnings per Share". ASC 260 requires presentation of both basic and diluted earnings per share ("EPS") on the face of the income statement. Basic EPS is computed by dividing net income (loss) available to common stockholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all dilutive potential common shares outstanding during the period using the treasury stock method and convertible preferred stock using the if-converted method. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excluded all dilutive potential shares if their effect is anti-dilutive. i) FISCAL PERIODS The Company's fiscal year end is June 30.

j) RECENT ACCOUNTING PRONOUNCEMENTS

In January 2010, the Financial Accounting Standards Board ("FASB") issued 2010-06, "Improving Disclosures about Fair Value Measurements". This update requires additional disclosure within the roll forward of activity for assets and liabilities measured at fair value on a recurring basis, including transfers of assets and liabilities between Level 1 and Level 2 of the fair value hierarchy and the separate presentation of purchases, sales, issuances and settlements of assets and liabilities within Level 3 of the fair value hierarchy. In addition, the update requires enhanced disclosures of the valuation techniques and inputs used in the fair value measurements within Levels 2 and 3. The new disclosure requirements are effective for interim and annual periods beginning after December 15, 2009, except for the disclosure of purchases, sales, issuances and settlements of Level 3 measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010. As ASU 2010-06 only requires enhanced disclosures, the Company does not expect that the adoption of this update will have a material effect on its financial statements.

In February 2010, the FASB issued 2010-09, "Amendments to Certain Recognition and Disclosure Requirements" which eliminates the requirements for SEC filers to disclose the date through which an entity has evaluated subsequent events. ASU No. 2010-09 is effective for fiscal quarters beginning after December 15, 2010. The adoption of ASU No. 2010-09 will not have a material impact on the Company's financial statements.
